Improvement Through Therapeutic Services

Bridges of Indiana™ is dedicated to providing quality services for individuals with disabilities requiring or seeking Therapeutic Services in order to enhance their quality of life. We are consumer driven with a strong belief in 1:1 interaction and the inclusion of the consumer's natural supports.

Our Perspective

Bridges of Indiana™ is committed to evidence based behavior modification for support and non-aversive interventions that accurately reflect the needs of the individual. Our agency will use a multidisciplinary team approach in providing a variety of interventions and replacement behaviors to highlight the consumer's strengths and needs. Our focus is on the person and the underlying factors surrounding the challenging behavior; not the behavior itself.

Music Therapy

Bridges of Indiana™ believes that Music Therapy is the difference between withdrawal and awareness, isolation and interaction, as well as demoralization and dignity. Our highly trained and experienced Music Therapists encourage emotional expression, promote social interaction, and impress upon the consumers active and passive therapy methods dependent upon needs and abilities.

- Advance Social Skills
- Build Higher Self Esteem
- Improve Fine & Gross Motor Skills
- Greatly Increase Communication

Behavioral Management

- ★ Person centered planning based on a hands on, comprehensive psycho-social assessment
- ★ Functional behavior assessments designed to create pro social behaviors and consumer independence
- ★ Individualized behavior support plans including goals and objectives designed to maximize the consumer's strengths
- ★ Creative methods of data collection
- ★ Data analysis designed to measure the ongoing effectiveness of each plan
- ★ Training for professional staff and natural supports in the basic principles of the behavior support plan
- ★ Non restrictive interventions, non aversive techniques
- ★ Support team consultation and face to face meetings

Recreational Therapy

Bridges of Indiana™'s highly skilled Therapists use Recreational Therapy to improve and maintain physical, mental, and emotional well being, reduce depression, stress, and anxiety, recover basic motor functioning and reasoning, as well as build confidence and socialization skills. Our Therapists use recreational interventions to improve all developmental domains. The goal of Recreational Therapy is to restore, remediate, or rehabilitate in order to improve functioning and independence as well as reduce or eliminate the effects of illness or disability.
